## Meet Uba Sani

Senator Uba Sani was born on the 31st of December in Zaria, Kaduna State in 1970. He is the incumbent Senator of the Kaduna Central Senatorial District of Kaduna at the National Assembly in Abuja.

A Mechanical Engineer by training, he holds a Master of Science degree in Finance from the University of Calabar and a Post-graduate Diploma in Business Administration from the University of Abuja.

### Early Life

Uba Sani protested against military authoritarianism in Nigeria, leaving behind a footprint of bravery and patriotism. He deployed his organization and networking skills in creating a strategic base for the pro-democracy movement in Northern Nigeria. He also made ample use of his civil society organization, the Movement for Freedom and Justice, to champion the rights of the underprivileged and offered them unfettered access to justice. He has held successfully the roles of the National Vice Chairman (North) of Campaign for Democracy (CD) and Deputy National Chairman (North) of the Joint Action Committee (JACON) led by the legendary Chief Gani Fawehinmi, SAN.

### Politics

Sani went into politics after the return of Democracy in Nigeria in 1999, and supported the People's Democratic Party presidential candidate, Chief Olusegun Obasanjo. After winning the presidential election, Sani was appointed Special Assistant on public affairs to the president.

He also worked at the Federal Capital Territory Administration (FCTA) on some advisory roles to the then FCT Minister, Nasir Ahmad El-Rufai and the Kaduna State Ministry of Works, housing and Transport. In 2011, Sani contested in the People's Democratic Party primaries for the Kaduna Central Senatorial seat but he lost the primaries, and in 2015, he was appointed by the Kaduna state governor, Malam Nasir Ahmad El-Rufai as the Special Adviser, Political and Intergovernmental Affairs. However, in 2019, Sani showed interest and contested for the second time for the Kaduna Central senatorial seat under the ruling political party, the All Progressives Congress (APC), and was elected senator during the February 2019 Nigeria general elections.

In May 2022, Senator Uba Sani won the APC primary election to become the gubernatorial flagbearer of the All Progressives Congress (APC) in Kaduna State.

### Humanitarian Life

Uba Sani founded the Uba Sani Foundation in 2018. The foundation's mission is to promote increased access to good healthcare services, education, and improved livelihood for the underprivileged in Nigeria. The foundation uses available resources and expertise to provide assistance to the less privileged in Education, Healthcare, Vocational Skills and Empowerment.

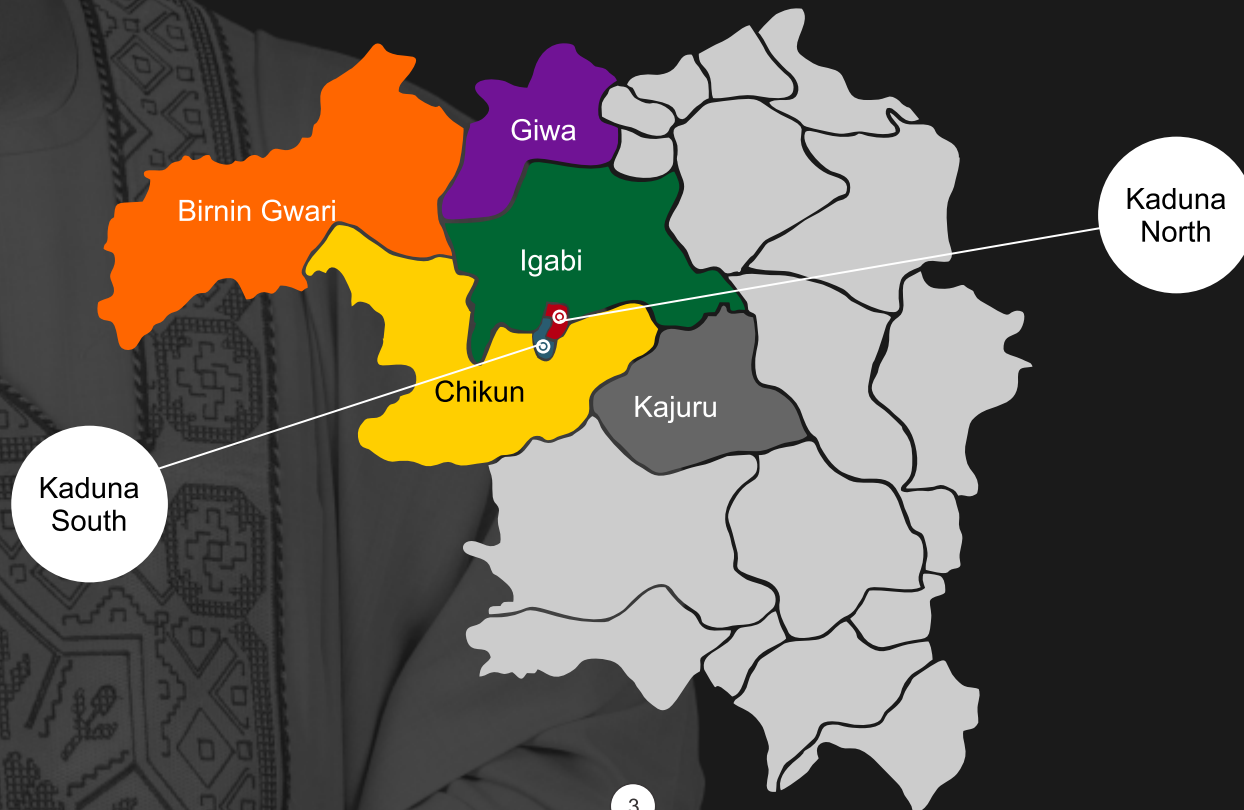

Senator Uba Sani's representation in the senate is also largely seen as a continuation of his love for service to humanity, as a human rights and pro-democracy activist, businessman and philanthropist. His devotion to helping people has endeared him to a lot of people in Kaduna State and indeed several Nigerians across the country.

# The Uba Sani Foundation

# Our Scope

## The Uba Sani Foundation

Senator Uba Sani's representation in the Senate is also largely seen as a continuation of his love for service to humanity, as a human rights and pro-democracy activist, businessman and philanthropist. His devotion to helping people has endeared him to a lot of people in Kaduna state and indeed several Nigerians across the country.

## Youth, Women and Children

The foundation also empowers young women and men with vocational business skills to reduce extreme poverty, such as fire outbreaks, floods and other calamities.

## Education

The foundation has integrated school outreach into its activities. This includes counseling, career guidance, and the distribution of educational materials to students.

Educational materials have since been shared to GGSS Kawo, GSS Rigasa and GSS Gonin Gora.

With a view to further encourage the academic participation of the students, the Foundation will be launching a new programme; the Uba Sani Annual Essay Competition

## Health

Over 50 Million Naira has been spent on the provision of free medical testing and treatment of the vulnerable in the zone.

## Skill Empowerment

100 out of 1000 targeted youths were trained in fish farming and poultry production. The College of Agriculture and Animal Science, Mando conducted the training. The foundation developed a business plan as well as registered businesses of all the 100 beneficiaries in order for them to operate legitimately.

Over 5000 women and youths have benefited from the skills acquisition programme across the seven local government areas in the zone.

## Funding

The Uba Sani Foundation collaborated with key agencies like Bank of Agriculture BOA and NIRSAL Microfinance Bank to assess low-interest loans of over N500 million to revive or recapitalize their businesses.

# TRAINING ON FINANCIAL INCLUSION

In a bid to deepen financial inclusion and create opportunities for access to credit facilities for people in Kaduna Central Senatorial District, the Uba Sani Foundation in partnership with the Central Bank of Nigeria (CBN) organized a two-day sensitization program for critical stakeholders across the seven LGA's of the District.

The engagement had in attendance Council Chairmen, District Heads, religious leaders (representatives of JN and CAN), National Youth Council of Nigeria (NYCN) officials, leaders of Persons with Disabilities organizations, political leaders, youths, and women leaders across the seven local government areas of the senator's constituency.

The program is the result of long and strenuous efforts by the Senator to ensure that the people of Kaduna Central Senatorial District in particular, and the North in general avail themselves of the opportunities offered by the Federal Government's Social Intervention Programmes. It was observed that in successive programs majority of the people could not benefit because they had no bank accounts and had little or no knowledge of how to access loan facilities. Instead of merely agonizing over the unfortunate situation, the Distinguished Senator took steps to remedy the situation, thus the sensitization program.

The target of the Foundation is to get about 1 million people to open bank accounts and acquire financial literacy in Kaduna State, and to get 4 million people in the North West to open bank accounts at no cost.

Participants at the engagement session appreciated the Central Bank of Nigeria (CBN) and the Uba Sani Foundation for taking the bold step aimed at putting them in good stead to benefit from the Government's intervention programs and incorporating them firmly into the ever-dynamic financial system.
